CIRCLE F DUDE RANCH OPENS FOR TEACHERS' WORKDAYS
Parents Now Have Alternative For Kids During School Closings

Lake Wales, FL---Before now, working parents in Central Florida have had few options when their kids were out of school because of teachers' workdays and similar school closings. Now they do. Circle F Dude Ranch is offering to provide its day camp activities on those days when schools are closed in Polk County. Other counties may be added into the program at a later date.

According to Steve Murray, the camp director, "These school closings create a burden on working parents because there is no supervised activity to put their children into for a day and they either have to leave them on their own or take a personal day off from work, which is not necessarily convenient for the parent or their employer. Now they have an option for supervised kid's activities provided by experienced personnel."

Activities at Circle F include horseback riding, kayaking, rock wall climbing, ziplining, paint ball, hiking, softball, roller skating, volleyball, tennis, basketball, and team building.

Transportation, as well as snacks at the camp, are available. Interested parents should call 1-863-676-4113 for more information and rates and also visit our web site at www.circlefduderanchcamp.com.
