Brown Bag Medication Review Offered at LWMC Health Fair

Lake Wales, FL – A “brown bag medication review” will be just one of the many services and screenings available when Lake Wales Medical Center holds its annual Health Fair on Thursday, Feb. 11. The Health Fair will be held from 10 a.m. to 1 p.m. at High Point Church, 501 Burns Ave. in Lake Wales. This is a free event and is open to the public.

Nearly 30 exhibitors will be on-hand, many of them offering a variety of health screenings including blood pressure, blood glucose, heart rate, pulse ox, peak flow, skin cancer screenings and more. Those who had blood work drawn prior to the Feb. 5 deadline will be able to pick up their test results at the health fair and discuss them with a nurse.

Attendees are encouraged to bring all medications they currently take – including prescriptions, over-the-counter medications, vitamins and supplements, to review them with a licensed LWMC pharmacist for any side-effects or potentially harmful drug interactions.

For more information, please call 678-2288.
